

Stop the Spread of COVID-19

Minimize campus access

A shelter-in-place order is in effect. Only personnel with prior authorization, a need to access physical locations on campus and proper personal protective equipment (PPE) should be onsite.

Maintain social distancing

Maintain at least six feet between people at all times unless required and appropriate PPE is used. Minimize group gatherings, and when required, limit the size to what is allowed by county officials.

Wear a face covering

It is required to cover your mouth and nose with a face cover when around others and when moving through common spaces.

Wash hands and avoid touching your face

Wash your hands often and thoroughly with soap and water for at least 20 seconds and when entering and leaving a workspace. Keep your hands away from your eyes, nose and mouth.

Disinfect common surfaces

Disinfect shared spaces and common contact sites at the beginning and end of the workday. (keyboards, door and cabinet handles, multi-user equipment, counters, vehicle interiors, etc.)
